**DECISION
ON PETITION**

This is a decision on the Petition to Withdraw Holding of Abandonment filed on May 18, 2005 pursuant to 37 C.F.R. §1.181. No fee is required.

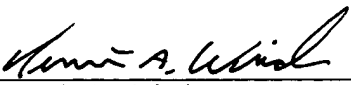

The petition is **GRANTED**.

This application was held abandoned for failure to timely file new formal drawings as required in the Notice of Allowability mailed December 14, 2004. A Notice of Abandonment was mailed May 6, 2005.

Petitioner states that a second Notice of Allowability received, did not require the submission of formal drawings. As evidence thereof, a copy of the second Notice of Allowability with facsimile transmission date of December 20, 2004 did not require submission of drawings. The first Notice of Allowability mailed December 14, 2004 did require corrected drawings.

A review of the file reveals that there is a Draft's person notice of informal drawing (PTO-948) of record. This notice is dated August 11, 2003. However, the cover sheet (PTO-326) of the Office action of September 10, 2003 (The next Office communication to applicant) does not indicate that a PTO-948 is included. Consequently, it is concluded the PTO-948 was not sent to applicant. The second Notice of Allowability does not indicate that corrected drawings are required.

Accordingly, the Notice of Abandonment is hereby vacated and the holding of abandonment is withdrawn. The requirement for corrected drawings is vacated. The application file is being forwarded to publications for further processing. If corrected drawings are necessary, notice to that effect will be sent to applicant.
